Enterprise Content Management

One place to store, one place to search

Easily and efficiently store, use and manage all your enterprise information from any device, anywhere and at any time. Capture all content from traditional letters and documents to tweets, photos, audio, videos, emails and more.

Overcome the challenge of managing vast amounts of business documentation, with centralised content management.

Overview

Capture information from any device and centralise the storage of all your enterprise content. Easily find information when you need it, with one place to search.

Store everything in one place

Use a single, central repository to capture emails, review and edit documents and store attachments of any type. Simplify backup procedures and remove the need for complex folder structures on network drives.

Easily access information

Find your content using a simple, intuitive search interface integrated with your core business systems to provide a single place to search for any business document.

Access your information from any device

With immediate and easy access to all the right information, make informed decisions without spending hours finding the information you need. With native smart mobile device and traditional PC/Laptop capabilities, easily use and capture information at the source.

Efficiently manage documents

Lower your document handling costs and ensure you are fully compliant with full approval and auditing capabilities. Use your enterprise system authorisation to control access to documents.

Future proof your content management system

Remove platform restrictions by using a solution that is device independent and developed for the cloud. Enable to your business to adapt to new technology as it becomes available.

Automate document profiling

Automatically create profiles with multiple indexes to link documents to where they are needed. Standardise naming conventions to structure the way information is retrieved.

Our enterprise software enables access from any device, any where, any time; and either on premise or via the TechnologyOne Cloud.

“Mobile ECM is very powerful. I can access any of the millions of documents we have in ECM including past versions. The powerful metadata searching makes things easier to find than basic cloud services like Dropbox. All the benefits of public cloud but with the security and features of ECM.”

Justin Thomas, ICT Manager, Noosa Council

Enterprise Content Management enables you to...

- ✔ Store all business documents in a single, central repository
- ✔ Adhere to legislative compliance
- ✔ Share information across work groups
- ✔ Capture and manage all enterprise information
- ✔ Access business-critical information from anywhere, at any time
- ✔ Automatically profile documents correctly
- ✔ Quickly find documents and records
- ✔ Capture information at the source, using any device
- ✔ Decentralise information capture and responsibility

Our approach

Our enterprise vision

The power of a single, integrated enterprise solution

Experience the power of a single, integrated enterprise solution built on a single modern platform with a consistent look and feel.

Market focus and commitment

Preconfigured enterprise software solutions reduce time, cost and risk

A deep understanding and engagement with our seven key markets means we can deliver to our customers integrated, preconfigured solutions that provide proven practice, streamline implementations and reduce time, cost and risk.

The power of one

One vision. One vendor. One experience.

When you invest in a TechnologyOne solution you benefit from a direct relationship with us every step of the way. We do not use implementation partners or value-added resellers. We take complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solution for each customer to guarantee long-term success.

The power of evolution

An enterprise solution that adapts and evolves

Substantial investment into R&D each year means we provide our customers a strong, continuing competitive advantage through an enterprise solution that adapts and evolves by embracing new technologies, concepts and innovation.

Simplicity, not complexity

Enterprise software, incredibly simple

Software that embraces consumer concepts and expectations to deliver solutions that are incredibly easy to use and remove complexity.

ECM002-0314

TechnologyOne (ASX:TNE) is Australia's largest publicly listed software company, with offices across six countries. We create solutions that transform business and make life simple for our customers. We do this by providing powerful, deeply integrated enterprise software that is incredibly easy to use. Over 1,000 leading corporations, government departments and statutory authorities are powered by our software.
